

Verification of Visual, Hearing, and/or Health Impairments

To ensure the provision of reasonable and appropriate accommodations, students requesting services must provide current documentation of their disability. This documentation should provide information regarding the onset and severity of the disability, as well as describe how it interferes with educational achievement. In order to establish that an individual is covered under ADA and Section 504 of the Rehabilitation Act of 1973, documentation must demonstrate that the individual has a disability and that it substantially limits some major life activity including learning. The documentation must show how the disability impacts the major life activity of learning, and if you are requesting accommodations, academic adjustments and/or auxiliary aids, the documentation must support your request.

The following form should facilitate this information gathering. Please complete this form in its entirety and attach appropriate medical reports if available. Appropriate services will be determined based on the specific information provided.
