Hands-On Learning: providing students the opportunity to practice skills learned in the classroom and clinical setting.

6 Meet Nicole Rotter

Student Perspective: Bellin College has given me many opportunities to learn and grow not only as a person, but also as a future nurse.

7 Mission Trips

Beyond the Classroom: Bellin College students practice skills to help those in need from Chicago to Guatemala.

A Message

From the Bellin College President

Our Mission:

Bellin College is dedicated to preparing healthcare professionals by providing an intellectually stimulating environment focused on leadership, community service, and lifelong learning that promotes excellence in healthcare practice and the advancement of the profession.

Our Values:

Excellence - being the best.

Community - partnership and shared participation.

Caring - empowering relationships based on empathy and respect.

Integrity - honest and ethical behavior.

Our Vision:

Bellin College will be the best health science college in the state of Wisconsin.

Our Purposes:

- To provide excellent educational programs which are responsive to the community.
- To create an intellectually stimulating environment for students, faculty and staff.
- To contribute to the community's well-being through faculty, staff and student services.
- To stimulate a climate of quality improvement.

www.bellincollege.edu

I hope you enjoy the new look and format of the Bellin Forward. We merged the alumni and donor newsletters to offer you one publication encompassing all news and updates from Bellin College each spring and fall.

So much has been accomplished this past summer and fall to share with you. In October, 29 students graduated from the 15-month nursing program during our fall commencement in the Bellin College Resch Atrium. We launched a new website in November and now have the ability to collect online payments for the first time. We hope you visit our new website often to catch up on the latest news and stories about our students.

As we look forward, we will be continuing to grow our high school initiatives through Hands on Healthcare events and summer camps. These opportunities allow high school students to experience our campus and explore a career in nursing or medical imaging.

Our Board of Trustees worked with the College to develop a new strategic plan. There are five areas of focus with many initiatives in each area. I have provided a brief overview for you below. These initiatives will help grow and sustain the college for the future.

Strategy One: Customer Service -

Providing an outstanding customer service experience.

1. Expand distance learning.
2. Develop a comprehensive recruitment plan.
3. Recognize students for their achievements.
4. Provide clinical roster information within one month of academic advising.

Strategy Two: People - Recruiting and retaining quality employees and enhancing relationships with key stakeholders.

1. Build and foster relationships with health systems.
2. Grow additional clinical sites.
3. Redesign the college website.

Strategy Three: Quality - Reporting exceptional results.

1. NCLEX results will remain at or above the national average.
2. Radiologic sciences graduates will obtain 100% success on their certification exams.
3. Family Nurse Practitioner graduates will attain advanced certification upon degree completion.

Strategy Four: Growth - Adding new offerings and enhancing existing programs to serve the community.

1. Increase usage of the College facility for students and the community.
2. Develop new partnerships within the community.
3. Achieve enrollment targets.

Strategy Five: Financial - Ensuring financial stability while supporting initiatives.

1. Target new annual scholarships.
2. Target new endowed scholarships.
3. Control tuition costs.
4. Track student need for financial aid.

I hope you are having a great start to the new year and thank you for your continued support. Your generosity, as always, is beyond appreciated. I hope to see you soon at one of our upcoming events or for a campus visit!

Sincerely,

Connie J. Boerst

Dr. Connie J. Boerst, EdD, RN
President/CEO

Congratulations, Class of 2016!

Bellin College welcomes 29 graduates to the Alumni Association

Bellin College held its annual fall commencement ceremony on Friday, October 14, 2016 in the Bellin College Resch Atrium. Twenty-nine students received their Bachelor of Science in Nursing degree from the 15-month program. Karen Brukardt, Class of 1966 Bellin College alum and current board of trustees member, gave the commencement address. The graduating class speaker was Mellissa Hammett and the alumni speaker was LaRae Bruno, Class of 1980.

Disaster Simulations

Bellin College hosted two life-like disaster simulations in 2016 involving students in both the nursing and radiologic sciences programs. The disaster simulations also included assistance from County Rescue, Village of Bellevue Fire and Rescue, and local area medical professionals. The simulations were held in the labs of the Health Sciences Resource Center in the lower level of the College.

The first simulation was held in February reacting to the aftermath of a fire in a hospital setting. The second simulation held in November was the scenario of a hospital reacting to a bombing that took place at a football game at Lambeau Field. In both situations, students were depicted as real victims to make the situation realistic. Students had to think quick to transport patients to safety and provide them with needed emergency care based on identified injuries.

The goal of coordinating these life-like simulations is to provide students with hands-on learning to be more prepared for their healthcare careers and gives them an opportunity to practice improving interprofessional communication, collaboration, and teamwork in order to provide quality patient care in emergency situations.

This type of hands-on learning allows students to apply leadership concepts and skills they learn in the classroom and in clinical, in a safe, controlled environment. Knowing they won't harm a patient prepares them to be confident and successful leaders in their chosen healthcare field. It helps them to start thinking about things a little differently and how to prioritize and organize care. They see first-hand how to work together as a team and work with other professionals, such as firefighters and EMTs. This allows them to see the roles of different providers and see their expertise and knowledge first-hand.

BSN student Taylor Wiese described the experience as one that will help her to be a better nurse. Interprofessional simulations have taught her that working together as a healthcare team; understanding each team player's role, and the ability to collaborate and communicate together, plays a critical part in being able to provide excellent care and leads to more positive outcomes for patients. Playing the role of the victim has helped students to understand better what it is like to be in the patient's shoes.

Student Perspective

“I believe that I have been properly prepared for wherever I end up after graduation.”

*-Nicole Rotter,
BSN Class of 2017*

I will be the first to admit that I never saw myself becoming a nurse. When I graduated high school, I knew two things about myself—that I loved science and I absolutely loved working with kids, but I had no clue what I wanted to do with that. I started at St. Norbert College in the fall of 2014 planning on going for a basic biology degree. In the middle of my first semester, I began thinking, “what could I possibly do with that biology degree that I would actually enjoy?” Two days before signing up for second semester classes at SNC, I made the switch to the pre-nursing program. This was just a few days after touring the Bellin College campus, and I honestly thought, “Hey, I could probably make a pretty good nurse”, and just went with it.

I started the 15-month nursing program in January 2016. I really enjoyed the direct entry from SNC with the partnership between the two colleges, so I knew that I was prepared for the transition. I never really looked around for nursing schools for a few reasons. First, I loved that Bellin College was close to my hometown. I also couldn’t pass up being in a small cohort that had just 32 students. And lastly, I really wanted the 15-month program. I am a quick learner, I enjoy school, and I also liked the idea of graduating by the age of 21 with a degree that will be able to take me anywhere I could imagine.

The first day I met my cohort, I was completely intimidated. I was the baby of the group. It seemed like everyone else had a degree of some sort already and had their life together, and here I was, barely 20 years old, starting probably the hardest 15 months of my life with a bunch of strangers. Little did I know that these girls (and one guy!) would become some of the greatest friends I could ask for. Nursing school really brings people together; you laugh together, you cry together, and stress out together. Eventually, I realized that it didn’t matter that I didn’t have any other degrees and never had any CNA

experience. We all had a lot to learn and overcome, but we all came together and helped each other out and made this program a great experience.

Knowing that the program I was entering was only 15 months, I thought that I wouldn’t have time to do any “extra” things because I would need to focus all of my time on school work, but I was completely wrong. I will admit, at first it seems like you have absolutely no time to do anything besides homework because there is an adjustment period, but after I knew what was expected of me, I was able to find spare time to get involved in different things that Bellin College had to offer.

One great opportunity I jumped at was to be a part of the newly created Love Your Melon (LYM) Bellin College Campus Crew. LYM is an apparel brand dedicated to giving a hat to every child battling cancer in America as well as supporting nonprofit organizations that lead the fight against pediatric cancer. I also recently had the opportunity to travel to Haiti for a week on a medical mission trip with *Friends of Haiti* to practice my nursing skills for those in need of care.

Bellin College has given me many opportunities to learn and grow not only as a person, but as a future nurse. As I am nearing graduation in May, and even though I will continue to learn every day from here on out in my nursing career, I believe that I have been properly prepared for wherever I end up after graduation. I hope to become a pediatric nurse in the near future, get a few years of nursing experience, and then go back to school to get my masters. I think I would really enjoy being a nurse educator eventually, so who knows what will be in store for me down the road! That’s one of the best things about getting a nursing degree – the possibilities are endless and there are always opportunities for change. I am very happy with the decisions I have made so far, and I can’t wait to see where I end up!

IHI Conference

The Institute for Healthcare Improvement (IHI) National Forum on Quality Improvement in Healthcare held the 28th annual conference December 4-7, 2016 in Orlando, Florida. This is the most powerful event of the year for healthcare students, residents, faculty, and deans who are passionate about improving care. Each year, the IHI Open School designs unique and specific programming for its members, and Bellin College was part of the action.

Mary Forbes, Abigail Bieber, Kelsey Thompson, and Kortney Marshall represented Bellin College's IHI Open School chapter with Dr. Connie Boerst, and presented a poster on the topic of, "Access to Healthcare for the Homeless Population in Green Bay, Wisconsin."

STAT: Student Trips and Transformations

On January 2, four Bellin College nursing students and one faculty member set out for an urban immersion service experience at the Darst Center in Chicago. The Center is a social justice education center located in the Bridgeport neighborhood on the south side of Chicago. The Center is unique in providing opportunities for young people to see more clearly the faces pushed to the margins of our society. The Darst immersion program focuses on the issues surrounding homelessness, poverty, food insecurity, incarceration, immigration, and education. In addition to participating in programs and services, time was set aside

each day for the group to debrief and reflect on what they experienced, how perceptions and interpretations affect these issues, and how they were both personally and professionally affected by these experiences.

Mission Trip: Guatemala

From January 7-15, Bellin College students, faculty members, and Bellin Health medical providers spent time in Alda Punta de Palma, Izabel in Guatemala for a medical mission trip.

Mission activities that the students were involved with:

- *Traveled to the only publicly run children's hospital in Guatemala, The Eliza Martinez Children's Hospital in Puerto Barrios.*
- *Set up a clinic site at the Puerto Barrios dump where approximately 300 people live year round, making a living from finding, cleaning and recycling what they find in the dump.*
- *Traveled to two remote villages in the jungle to set up a portable clinic site and also made calls to people who were unable to come to the clinic site.*

- *Set up a clinic site in an abandoned teak farm in the jungle. Villagers traveled to the clinic site, many having to walk on foot for more than an hour.*

Malnutrition, respiratory illness, parasitic infections, dental disease/cavities and musculoskeletal injuries are just a few of the concerns the students addressed at these clinic sites.

Greetings, fellow alumni! I am honored to have the opportunity to serve you as chair of the Bellin College Alumni Council.

The New Year will bring exciting opportunities for all to become involved. I have heard some good feedback regarding increased involvement, and I look forward to working through them. I hope you, too, are ready to bring your energy and fresh ideas for a great year!

The Alumni Council consists of volunteers representing a range of class years, interests, and professions. The overall goal of the Council is to create comradery between alumni and maintain a connection between current and future alumni through scholarship and fellowship. Members provide guidance and support in event planning and present new and exciting ideas in all aspects of alumni relations.

From your Alumni Council Chair

As the Council evolves, we look to add new members. We would love to hear from any alumni who would be interested in joining the council.

Please consider attending all of the Alumni events this year. Coming up in May is the Breakfast Social, which gives you, our alumni, an opportunity to interact with the graduating seniors on the day prior to commencement. More information will be mailed to you closer to the event. Also, save the date on your calendar for 2017 Alumni Homecoming in September! I think this will prove to be a wonderful and enlightening event for everyone!

The Bellin College Alumni Council holds meetings on the first Wednesday of every other month at Bellin College.

Kind regards,

Sue Danielski

Career Fair 2017

Monday, February 20

8:30-10:30 a.m.

Bellin College Atrium

Recruiters attending:

- Agnesian Healthcare
- Atrium Health and Senior Living
- Aurora Health Care
- BayCare Clinic
- Bellin Health
- Children's Hospital of Wisconsin
- Green Bay Correctional Institution
- Gundersen Health System
- Holy Family Memorial
- HSHS (St. Vincent Hospital, St. Mary's Medical Center, St. Nicholas Hospital, St. Clare Memorial)
- Marshfield Clinic
- Mayo Clinic
- Milo C. Huempfer V.A. Healthcare Center
- Premier Medical Staffing (Milwaukee)
- Rennes
- ThedaCare
- Unity Hospice
- Woodside Senior Communities

Alumni are welcome to attend! Please RSVP to Janelle Maricque at Janelle.Maricque@bellincollege.edu.

Distinguished Alumni Award

Each year the Bellin College Alumni Association recognizes a graduate who has achieved outstanding accomplishments and who exemplifies the mission and values of Bellin College.

Nominees will have graduated from the Bellin College BSN, BSRS, MSN or Nursing diploma programs and will be considered based on their professional accomplishments, community service, contributions to the nursing or radiologic sciences profession, and how they exemplify the mission and values of Bellin College. **2017 Nominations will be accepted until 4 p.m. on July 29, 2017.** All nominations will be reviewed and the award will be presented at the 2017 Alumni Homecoming.

To nominate a Bellin College alumnus, please complete the Bellin College Distinguished Alumni Nomination Form on our website at www.bellincollege.edu/alumni/distinguished-alumni.

For more information, contact:

Jamie Jergenson, Development & Alumni Relations Coordinator
(920) 433-6655 or Jamie.Jergenson@bellincollege.edu

“The four-year program offered extra time to become comfortable and confident in my future role, so I could really dive into my first job.”

*-Ellen Stiennon,
BSRS Class of 2014*

Alumni Spotlight

A career perspective from a 2014 Bellin College graduate

Ellen Stiennon is a 2014 Bachelor of Science in Radiologic Sciences (BSRS) graduate from Bellin College. Ellen feels her education has prepared her to be successful in her career. She currently works in general diagnostic radiology at UW Health in Madison, WI. She is an objective level imaging specialist on the night shift and, being the most senior

technologist on her shift, she often takes on the charge technologist role. “The four-year program offered extra time to become comfortable and confident in my future role, so I could really dive into my first job.” She added, “Even though we didn’t have access to a level one trauma center, which is where I work now, the foundation Bellin College provided me made it possible to build on my experiences and apply those skills to situations I may not have seen before.”

Ellen loved the clinical opportunities and the variety Bellin College offered. “I met so many great people and learned so much ‘on the job’ that can’t be taught in the classroom. So many other programs throughout the state don’t offer more than one or two clinical sites, and the fact that we got to see so many different types of settings was such a positive thing.” The only thing that would have added to her experience is to have the opportunity to have more night clinical experiences because those are the shifts in which most graduates will start their careers.

Ellen recently had the opportunity to work with some recent graduates from the BSRS Class of 2016. She has expressed how much she enjoys working with them on her shift and teaching them how things work at UW Hospital. She has found there is a wide range of education levels, but the incoming techs who have a four-year degree tend to come in with more confidence. Ellen expressed, “It has been recognized by managers in my department that Bellin College graduates interview very impressively, and their training process goes by smoothly. Every Bellin College graduate who interviewed with UW Health in the last year was offered a position.”

Radiology is a very interesting and rewarding career. If you are like Ellen, and want a career that keeps you on your toes and is always exciting, but allows you the work-life balance to go home at the end of the day and leave work behind, this career is a perfect fit.

Alumni reunite at homecoming 2016!

Bellin College hosted its annual Alumni Homecoming on Thursday, September 8, 2016 at Bellin College in the Resch Atrium. The event included a special recognition of the Class of 1966 and the Class of 2006, who celebrated their 50 and 10 year reunion anniversaries respectively. Bellin College's broad base of alumni were represented, with individuals ranging from the Class of 1943 to 2016.

The event also honored distinguished alumni award winner Dr. Sally Karioth. Dr. Karioth is a nurse, teacher, writer, talk show hostess and nationally renowned grief therapist. As a 1967 graduate of Bellin School of Nursing, she was the first graduate to obtain a PhD. For more than 45 years, Dr. Karioth has also been a counselor, helping people cope with the death of loved ones. Her particular concern is parents who have lost a child to

death. She is a public speaker and author on the topic of illness and death. If one sentence characterizes the message of her speeches, it is her slogan: "Life is not a dress rehearsal, you should have at least one exquisite moment." Dr. Karioth takes listeners on a rollicking ride of humorous anecdotes, somber insights and helpful suggestions, and was one of the first women invited to deliver a TED talk. She has taught more than 26,000 students at Florida State University, was a mentor to three Rhodes Scholars, and has received numerous national, state and local awards.

The winner of the door prize for attending Bellin College Alumni Events in 2016 was Audrey Burmeister, Class of 1968. Congratulations! We look forward to seeing you all again in September 2017!

Condolences

Class of 1941 – Alma Kuschel passed away on November 28, 2015 at the age of 96. Alma graduated from the three-year nursing program at Bellin Memorial Hospital in 1941. She joined the Nurses Corps in the Naval Reserve upon graduating and served for 30 years by the time she retired as Lieutenant Commander.

Class of 1943 – Grace Foster passed away on May 22, 2016 at the age of 95. She graduated with a diploma from Bellin Memorial School of Nursing in 1943. Believing that all families had a duty to serve during World War II, she joined the Navy and was honorably discharged in 1945 with the rank of Lt. (JG)(NC) USNR.

Class of 1946 – Lucille Ouhl passed away on July 22, 2015 at the age of 91. Lucille always wanted to be a nurse and entered nurse's training at Bellin Memorial Hospital. She joined the Nurse Cadet Corps during World War II.

Class of 1948 – Elaine Younk passed away on August 22, 2016 at the age of 88. In 1948, Elaine graduated from Bellin Memorial Hospital School of Nursing as a registered nurse. Elaine was proud of her service in the Nurse Cadet Corps and was part of the last class at the end of WWII. She was employed by Bellin Hospital and Grancare Nursing Home and enjoyed her many years of nursing.

Class of 1953 – Emily Schley passed away on August 21, 2016 at the age of 84. She grew up in Green Bay and showed a tremendous sense of home and pride. Emily was a graduate of Bellin College, Class of 1953 and enjoyed her career as a registered nurse, which gave her many interesting stories to tell.

Class of 1953 – Joanne Tomson passed away on October 10, 2015 at the age of 84. Joanne was a graduate of Bellin College, Class of 1953.

Class of 1958 – Barbara Matthews passed away on December 27, 2016 at the age of 80. In 1958, Barbara graduated from Bellin Memorial Hospital School of Nursing, and went on to have a 30-year nursing career. She actively volunteered with Meals on Wheels, the United Methodist Church, Jean Granger Clinic and Girl Scouts and Boy Scouts.

Class of 1963 – Christine Stransky passed away on May 11, 2016 at the age of 73. Chris was a 1963 graduate of Bellin Memorial Hospital School of Nursing. She had a long career as a registered nurse in managerial positions at Columbia Hospital in Shorewood and Columbia St. Mary's in Ozaukee.

*"What we have once enjoyed
can never lose, all that we love
deeply becomes a part of us.*

- Helen Keller

Thank You!

Support Bellin College and invest in the future of healthcare

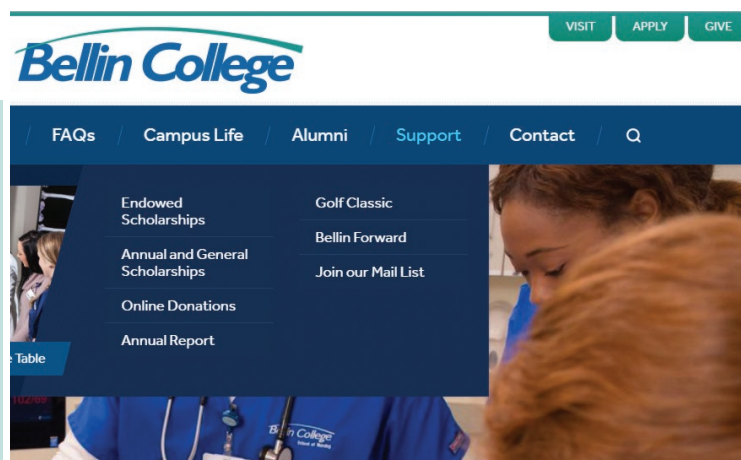

We are committed to providing the most advanced healthcare education available, while trying to help alleviate the financial burden to our students. Your generosity and support is vital. The landscape of the region's healthcare needs are ever changing. Bellin College has been a premier healthcare educator in Northeast Wisconsin for more than 100 years. Your support of this institution is an investment in excellence. Our commitment to educate the best and brightest students and practitioners is proven. We look for support for scholarships, technology, program development, and many other areas. Please consider a gift to Bellin College to assure the health of our healthcare.

Ways to Give:

- *Scholarships*
- *Legacy Society*
- *Naming opportunities available on campus*
- *In-kind support*
- *Sponsorships*

Now accepting online donations!

Go to www.bellincollege.edu and click on the GIVE button in the upper right corner.

The Bellin College Alumni Scholarship originated from the Alumni Council as a way to alleviate the financial strain of earning a degree. The scholarship is awarded annually to nursing and medical imaging students as they pursue their career goals. The demand for skilled registered nurses and medical imagers has never been greater, nor has the cost of higher education. This is why your generous gift, no matter how big or small, makes a difference in the lives of our students. For the 2016-2017 academic year, the Alumni Scholarship awarded \$2,000 to three deserving students.

The legacy you leave behind can be found in the lives you've touched...

What will your *Legacy* be?

Are you ready to plan for your future, but you're not sure where to start?

It's never too late or too early to create an estate plan.

What is planned giving?

Planned giving consists of designating a gift during your lifetime or at passing that is part of your overall estate plan. A planned gift gives you the opportunity to make a lasting contribution in the lives of others. Examples of planned gifts include bequests, life insurance, charitable gift annuities, memorials, property and endowments.

To create your own planned giving legacy, Bellin College recommends consulting your financial advisor.

Bellin College Legacy Society

The Bellin College Legacy Society is a group of individuals who have decided to remember us in their wills. This special group of people are essential to the advancement of the college and to ensuring that our students have the opportunities to receive a high-level education at an affordable rate.

Have you remembered us in your will?

Please let us know.

Would you like more information?

Please contact the Development and Public Relations Department at (920) 433-6654.

New Hires and Accomplishments

Tom Shefchik joins Bellin College as the new Executive Director of Advancement

Tom Shefchik was installed as the first Executive Director of Advancement for the College. This is a newly created position to add to the growth of Bellin College. Tom graduated from the University of Wisconsin-La Crosse with a degree in community health education, and shortly thereafter began his career with the American Cancer Society. He brings to Bellin College, 16 years of non-profit leadership and development experience. His primary role and responsibilities will be to foster and enhance relationships with our current donors and develop new relationships to contribute to Bellin College's growth strategy. Tom said of his new role as Executive Director of Advancement at Bellin College, "I am excited to have a role in which I can match a donor's passion to make an impact in the quality of healthcare delivered in Northeast Wisconsin

for many years to come. I am impressed with the legacy Bellin College has in this area in doing just that and I firmly believe with ongoing support, Bellin College is uniquely positioned to make the greatest impact going forward."

Greetings from the new Development and Alumni Relations Coordinator!

Jamie Jergenson joined Bellin College in January 2017 as the Development and Alumni Relations Coordinator. In her role, Jamie will grow the College's relationship with alumni and donors to create an engaging environment for supporters of Bellin College. She looks forward to helping alumni and friends to connect and continue to collaborate to support preparing future nurses, radiologic technologists, and diagnostic medical sonographers.

Bonnie Luebke

joined Bellin College as the Health Sciences Resource Center(HSRC) faculty coordinator in August 2016.

Tina Parins

joined Bellin College in the Academics Department as the Administrative Assistant supporting the BSN program in October 2016.

Randy Cash

was promoted to Health Sciences Resource Center (HSRC) Director in August 2016. Randy joined Bellin College in November 2015 as the HSRC Faculty Assistant. Randy brings over six years of nursing experience; including medical-surgical, cardiac, bariatrics, and management/supervision. Randy also completed his Master of

Science in Nursing-Nurse Educator track from Grand Canyon University in February 2017.

Dr. Mark Bake

Dean of Allied Health Sciences/BSRS Program Director, completed his doctorate in business administration with an emphasis in healthcare management and leadership from California Intercontinental University in November 2016.

Welcome our newest faculty members!
