

POPTS/Referral for Profit Memo of Understanding

The Bellin College Fellowship program is credentialed through the Accreditation Council for Orthopaedic and Manual Physical Therapy Education (ACOMPTE). Students in these programs are prohibited from participating in ANY clinical or supervised mentoring (both 1:1 and non-1:1) hours in a physician owned physical therapy practice (POPTS) or referral for profit (RFP) facility. Please contact Bellin College directly for further clarification on this policy.

Do you work in a POPTS or RFP facility? YES NO

By signing this memo, I understand this policy and verify that I will not conduct clinical or supervised mentoring in a POPTS or RFP facility. (Acknowledgement required for admission to this program).

Note: If you do work in a POPTS or RFP clinic, you may still complete this program BUT you must conduct all 1:1 mentorship hours and non-1:1 mentorship hours in a different setting that is not a POPTS/RFP site. Communicate immediately with your Program Director to understand how you can proceed with your program.
